

United Way of Central Washington

Why, When, How

Why?

United Way believes that there are 3 areas that define a strong community. Education, Income, and Health.

45% of Granger residents receive assistance through the Basic Food Program, while 60% of families in Mabton with children under 5 are living below the federal poverty level.

32% of families in Sunnyside with children under 18 are living below the federal poverty level

4896 people were served through the Mabton Food Bank, 18147 people in were served through the Sunnyside Food Bank.

166 sexual assault victims were helped by Lower Valley Crisis & Support Services last year.

When?

United Way works everyday to promote programs that work for the greater good. Last year more than 100,000 points of service were conducted. That means people had access to programs that help children to advance and become adults of good character, senior citizens receive well balance meals, and families received counseling to get their lives back on track.

How?

To continue our work to advance communities for the common good, we need your help.

Please consider a Company Contribution and Employee Campaign. Over 70% of the funds raised in our United Way are because of the generous payroll deductions make by employees.

If you would like additional information about how United Way is working locally to support our community, you can give United Way a Call, 248-1557 or 925-2730.

Thank you.
